Lead UX/UI Designer and **Senior UI Developer** with **13+ years of experience** designing and delivering scalable, enterprise-grade **web and hybrid mobile applications,** with strong exposure **to product design and end-to-end product development.** Strong expertise in **application modernization, performance optimization (Core Web Vitals), accessibility-first design**, and **mobile-first responsive design**.

Work Experience

Lead UX/UI Designer| Senior UI Developer

Gateway Group of Companies, Gujarat
October 2015 – Present | Full-time | Notice Period: 1 Month

- Led **end-to-end UX strategy** across multiple **enterprise and SaaS products**, translating **complex business requirements** into **intuitive, scalable user experiences**.

- Drove **user-centered design decisions** through **qualitative and quantitative research** methods including **user interviews, usability testing, surveys, analytics, and heuristic evaluations**.

- Created and maintained **scalable design systems and component libraries**, ensuring **visual consistency, accessibility, and faster delivery** across products and teams.

- Partnered closely with **Product Owners, Engineering Leads, and Business Stakeholders** to align **UX outcomes with KPIs, roadmap priorities, and long-term product vision**.

- Defined **UX standards, interaction patterns, and documentation** to ensure **consistency across web and mobile platforms**.

- Conducted **usability testing sessions (moderated & unmoderated)**, synthesized **actionable insights**, and iterated designs based on **measurable user feedback**.

- Mentored **junior and mid-level designers**, providing **design critiques, career guidance**, and best practices in **UX research, interaction design, and accessibility**.

- Championed **accessibility and inclusive design** beyond compliance, advocating for **diverse user needs** across devices, contexts, and abilities.

- Balanced **business constraints, technical feasibility, and user needs** to deliver **pragmatic, high-impact design solutions**.

- Played a key role in **discovery and define phases**, contributing to **personas, journey maps, and user flows**.

- Successfully redesigned **legacy systems** into **modern, responsive, and performance-optimized experiences** with **minimal disruption to users**.

Senior UI Developer

Hiddenbrains Infotech Pvt. Ltd., Ahmedabad
May 2014 – Sept 2015

- Created & Converted Photoshop designs into **responsive, pixel-perfect web and mobile UIs**.

- Developed cross-platform mobile UI using **Framework7 and Ionic** for Android and iOS.

- Built scalable CSS architectures using **SASS** following best practices.

- Integrated UI functionality using **Bootstrap, Material, jQuery, and custom JavaScript**.

- Worked as a **client-facing dedicated developer**, delivering solutions by continuous communication with client expectations.
